

Appendix D

Community College Effectiveness Data

Quality information helps consumers and administrators make informed choices about where they invest their time and money. When students and parents know how successfully the colleges serve students, they can make informed decisions about where to attend college. College administrators also benefit from good information that allows them to see where they need to focus attention. Policy-makers and oversight entities benefit from data that enable them to compare performance over time and one institution with another.

Federal and state laws require the community colleges to collect information on their performance. Much of this information is inaccessible or unwieldy. Where available, it is generally published in the aggregate, representing statewide performance. The most widely referenced source of performance data for the community colleges is a report titled *The Effectiveness of California Community Colleges on Selected Performance Measures*. It is available from the Chancellor's Office or via the Chancellor's Website at <http://www.cccco.edu/cccco/mis/effect21.htm>.

The information contained in this appendix is drawn from the data sources used to prepare the *Effectiveness* report and other reports. The information presented here is disaggregated to reflect the Chancellor's *Effectiveness* indicators for individual colleges.

The Commission presents this data as an example of information that is presently available and that could be used to better inform students, parents, voters and policy-makers on the priorities and performances of each college. The following information on each college is an illustration of the usefulness of data. This presentation is not a report card for the colleges. Other data may provide a clearer or more representative image of the efforts of particular colleges.

Enrollment:

FTES (Full Time Equivalent Students): A measure of the number of students a college serves that accounts for variation in the number of classes students take. One FTES is roughly equivalent to one student taking five 3-credit courses each semester for two semesters.

Headcount: Sum of individual students actually enrolled for all terms in the academic year.

Student Performance:

Enrolled: Represents the number of students who enrolled in the course.

Completed: Represents the number who finished the course.

Successful: Refers to students who earned a grade of A, B, C or Credit.

Basic Skills: Basic skills courses are pre-collegiate level courses. Data reflect only basic skills math and English courses.

Enrolled: Represents the number of students who began course.

Advancement: Represents students who later successfully completed a higher level course.

Enrollment by Course Type: Percentage of course enrollments by type. Totals do not equal 100 percent. Some courses are counted as vocational and as transfer.

Student Goals: Information on student goals is used to determine whether the college programs and services match student needs.

Transfer: Transfer to a four-year university.

AA or AS degree: Obtain an Associate's degree.

Vocational degree/cert.: Obtain a vocational education degree or certificate.

Basic skills: Improve basic skills.

Career planning: Plan for or learn about a new career or improve skills.

Personal development: Complete credits for high school diploma or personal interests.

Unsure: Undecided or unreported.

Course Enrollments: Represents course enrollments in various disciplines as a percentage of all course enrollments.

Methodology

The data presented in this appendix come from reports issued by the California Community Colleges Chancellor's Office: *The Effectiveness of California Community Colleges on Selected Performance Measures (1999) and Partnership for Excellence Fact Book*.

Student Performance

The data are course enrollments. Course types of exclusive. Transfer reflects all transferable courses. Vocational reflects all vocational courses excluding those that are transferable. Basic skills reflect pre-collegiate level courses

Enrolled: Represents the number of course enrollments in which the student received a letter grade of A, B, C, CR, D, NC, F, I, W or MW as the official record at the completion of the course. Excluded are noncredit course enrollments with a reported grade of RD, UD, UG and XX.

Completed: Course completion refers to the course enrollment receiving an end-of-term official letter grade of A, B, C, D, CR, NC, F or I out of the total course enrollment attempting the course. Attempted enrollment includes the sum of students receiving an official end-of-term letter grade A, B, C, CR, D, NC, F, I, W or MW. Excluded are noncredit course enrollments and those with a reported grade of RD, UD, UG and XX.

Successful: Successful course completion refers to the sum of course enrollments receiving an official end-of-term letter grade of A, B, C or CR

Basic Skills

Basic skills data are reported for each college as part of the Partnership for Excellence. Data are from a three year period (1995/96 – 1997/98). Basic skills courses are those with a Course Basic Skills Status (CB08) or "P" or "B" as defined in the Chancellor's Office Management Information System Data Element Dictionary.

English courses are those that have a Course Program Code (CB03) of: 1501.**, 1503.00, 1504.**, 1507.**, 4930.21, 4930.70, 4930.71.

Mathematics courses are those that have a Course Program Code (CB03) of 17**.**, 4930.40, 4930.41, 4930.42.

Enrolled: Refers to student with a Student Headcount Status (STD7) of "A", "B", "C" or "F" in at least one term during the 1995/96 academic year. Students are associated with the college where they were enrolled during the 1995/96 year.

Advancement: To be counted as "Advancement" a student must have enrolled in a basic skills course, then in a subsequent term, they must enroll in a course with a course program code in the same group but which is at a higher level and successfully complete the class.

Enrollment by Course Type

Measures reflect course enrollments as percent of all enrollments. Course type designation is based on TOP codes.

Student Goals

Information on student goals is collected through college matriculation services or on student applications. The information is used to determine the match of student goals with the instructional services provided.

Goal Categories: The Chancellor's Office reports 14 categories of student goals. They have been grouped into the following categories for reporting purposes.

- Transfer:** obtain AA and transfer, transfer without AA
AA or AS degree: obtain AA without transfer
Voc. degree/cert.: obtain vocational education degree without transfer, earn vocational certificate without transfer
Basic skills: improve basic skills
Career Planning: formulate career interest, prepare for new career, advance in current career, maintain license or certificate
Personal develop.: educational development, complete credits for high school diploma
Unsure: undecided, unreported

Course Enrollments

Community college courses are identified with a numeric coding system referred to as a Taxonomy of Programs (TOP) code. TOP codes are six digit identifiers that begin with a two digit root that is used to classify courses into disciplines. The Chancellor's Office maintains the Taxonomy of Programs.

The following TOP codes were used in this Appendix.

| | |
|---|--|
| Biological Sciences: 0400.00 – 0499.00 | History: 2205.00 |
| Business & Mgmt: 0500.00 – 0599.00 | Industrial Technology: 0924.00 – 0999.00 |
| Computer/Info Science: 0701.00 – 0799.00 | Mathematics: 1700.00, 1701.00, 1701.10, 1701.70, 1799.00 |
| Economics: 2204.00 | Physical Education: 0835.00, 0835.10, 0835.30, 0835.50. |
| Education: 0800.00 – 0809.00, 0837.00 – 0899.00 | Physical Sciences: 1900.00 – 1999.00 |
| English: 1501.00, 1503.00, 1504.00, 1506.00, 1507.00. | Political Science: 2207.00 |
| Fine & Applied Arts: 1000.00 – 1099.00 | Psychology: 2000.00, 2001.00, 2099.00 |
| Foreign Language: 1100.00 – 1199.00 | Sociology/Anthro: 2202.00, 2208.00 |
| Health: 1200.00 – 1299.00 | Remaining: All other course enrollments. |

These disciplines and the TOP codes they represent were selected for presentation based on the statewide distribution of course offerings and the relevance of the discipline to general academic preparation. Disciplines which are not reported but are available from the Chancellor's Office, include: agriculture and natural resources, architecture and environmental design, communications, consumer education and home economics, law, humanities (other than English, which includes philosophy and religion only), library science, military studies, public affairs and services, social sciences (other than those listed above), commercial services, and interdisciplinary studies.
